

HILLSGROVE PRIMARY

AMBASSADORS 2021

Pursuing Excellence ♦ Engaging Minds ♦ Inspiring Futures

Our Ethos is based on the five R's of life-long learning:

Resilience - We know that sometimes learning is hard, but we are resilient.

Responsibility - We are responsible for our classroom, our learning and one another.

Resourcefulness - We are resourceful and make good choices about ourselves and our work.

Reasoning - We reason things through carefully and think as we go.

Reflectivity - When we do something we always reflect on what we have learned and what we could do differently next time.

Pursuing Excellence ♦ Engaging Minds ♦ Inspiring Futures

Ambassador

A representative or promoter of a specified activity

You might say, “He/she is a good ambassador for the school”

Synonyms: representative, example, promoter, advocate, champion, supporter, backer, upholder, booster

Their key roles are to:

Be the public face of the school

Be role models for their peers

To speak at school events

To lead on pupil voice

Pursuing Excellence ♦ Engaging Minds ♦ Inspiring Futures

Hello, my name is Louie and I'm one of the Year 6 ambassadors. This is a little insight into my life at Hillsgrove.

I am a very positive and proactive learner with a keen eye for detail. I like a variety of subjects such as Maths, English, Art and particularly PE and ICT, however I believe I try hard in every subject. I enjoy helping others inside and outside of school.

I like to be involved in group activities and am happy to participate in daily class learning. I believe Hillsgrove is a large family in a way that they are supportive and encourage every child to get involved in activities. The teachers are friendly and there's always someone to speak to if you need to.

It's been very challenging for our school over the last 18 months, but I was very proud of all the teachers and students as we all supported each other.

I hope Hillsgrove continues to have its community led vibe and grows academically helping all future students. Personally, my dream for the future is to be an architect, so I hopefully one day you will see a building that I have designed. Hillsgrove has given me everything I needed to start my learning journey and I'm looking forward to the future and where it takes me.

Louie

Pursuing Excellence ♦ Engaging Minds ♦ Inspiring Futures

Having been at Hillsgrove Primary School since nursery, I have been able to develop my skills immensely. The kindness and compassion that I have learned here are essential qualities for a bright future ahead of me and for becoming a great learner in life, and the school has helped me to attain many goals - most recently in becoming Senior Ambassador and passing the Bexley Test.

The environment is so helpful and friendly that it is hard not to grow a passion for learning and an understanding of the world we live in. I have settled down so nicely, forming firm friendships with peers and even staff members - who cared as much for me when I was 3 as they do now I am nearly 11. I hope that future generations will continue to thrive here and that Hillsgrove will always be the amazing school it is now. To think of departing next year makes me miserable, but even though I will be moving on in life, no matter where I go, I will always remember being here and be thankful for everything I have experienced at Hillsgrove Primary School.

Pursuing Excellence ♦ Engaging Minds ♦ Inspiring Futures

I feel that I am a very confident and positive learner who is always willing to help and support my peers. As an Ambassador, I can now fully commit to that purpose, represent and contribute to the whole school.

My main ambition for my final year in primary, before taking the step into secondary school, is to improve this school for students already here and for the many to come, to make my mark. My personal aspiration is to be successful in life and to fulfil my dreams. I feel that Hillsgrove has been a good foundation for this.

I think of Hillsgrove as a friendly community of teachers and peers. Hillsgrove is so supportive and eager to help with anything in and out of school, they care so much about the students.

I feel that one of my best qualities is that I am a dedicated and eager worker who demonstrates the 5Rs. I consider myself a good role model who is always willing to help. I like to adopt a positive approach to all problems and I think if I can achieve this, then I can really make a difference to school life for future pupils.

Casey

Hello, my name is Ava and I am an Ambassador here at Hillsgrove Primary School. I joined the school in Year 3 and all of the pupils and teacher made sure I settled in well. I think Hillsgrove is a very good school, as the teachers are very supportive and the pupil are encouraged to be themselves, and take pride in their differences. We are also encouraged to be role models to the younger years, by setting good examples when it come to learning.

Learning at this school is very enjoyable, as we are given the help we need and work that can challenge us in different swat such as Maths quizzes, science experiment and much more. As a student, I try to be respectful, caring and concentrate in lessons. At the moment I am enjoying learning about WW2 and reading our AIR book 'Friend or Foe'. I find this subject really interesting and enjoy researching information on the chrome books.

In the future, I would like to become a veterinarian where I can assist in caring and proving help for animals. I know this means I have to concentrate in lessons, take education seriously and participate in extra learning when given the chance.

Ava

Pursuing Excellence ♦ Engaging Minds ♦ Inspiring Futures

I am very ambitious in my work. I try as hard as I can even if it might not be my strongest subject. My strongest subject is Maths; angles are my favourite because I can easily recognise and calculate answers. I am very resilient.

I like Hillsgrove because of the amazing teachers and staff who have taught me through the years. All of the staff have helped me achieve great things and have made me become a successful person. Hillsgrove has made all these years special; by having a school trip with your class. They have made wonderful opportunities by raising money for charities.

I would like to go to college and university so when I am older I can be a teacher or work with children in different schools. My hopes are to be successful in school and to have good grades which will impact on my future. My dreams are to become a perfect student and teach the children of the future. I am a very good role model and I really enjoy being looked up to.

Angel

Pursuing Excellence ♦ Engaging Minds ♦ Inspiring Futures

I appreciate my learning will influence my career choices in the future. I already try my hardest even though I can get things wrong – trying is the key. We can't know everything and at Hillsgrove we are taught that everyone will find something they are good at.

I feel that I am really good at sports. I do Jujitsu, running and boxing in my spare time. I am also good at Maths and Science base subjects because I am good at problem solving. We all listen well in lessons because we SLANT and I really enjoy helping my peers to learn.

Hillsgrove is an inclusive school that values and respects everyone and we are a whole family. It is an excellent school because they have a no-bullying policy and I will be very sad to leave Hillsgrove.

I want to aim high in the future and achieve big things. I also want to have a career in something Maths and Science based and I would like to go into medicine like a vet or Doctor

What are you like as a learner?

I feel like I am a good learner as I try my best in all subjects. I may not be the greatest at some but I will always try. I work very hard and always hand in my homework on time. I listen to my teacher and try hard to make my work look neat and presentable.

What do you feel you are good at?

I feel I am good at many subjects, for example: English, Guided reading and PE. I mostly enjoy art and PE because it helps me relax and it's a way of expressing myself and keeping fit. I love reading as there are so many different stories and books.

What do you think of Hillsgrove?

I started Hillsgrove when I was only 4 years old and now it's been 7 years. It has been a great experience as the teachers are caring and understanding. I personally like how in the classroom there are things to help you with like different resources and working walls. The playground is really big and you can always run around and explore. In general I can say that I have had a happy and great time at Hillsgrove Primary School.

Your hopes, dreams and ambitions for the future (personal and school)

I hope that in my new secondary school I will make new friends, learn different things and settle in. When I'm older I would want to be a vet because I love animals and like to help them. I want to live a happy and healthy life and be successful.

Lily

Pursuing Excellence ♦ Engaging Minds ♦ Inspiring Futures

Hello there, my name is James and I am one of the twelve ambassadors in year six.

I am a quick learner and I always look forward to learning and never groan on Monday or scream with joy on Friday. I am good at maths, comprehension (guided reading) and computing. I feel I am good with coming up with lots of ideas to bring my writing to life and have a wide range of vocabulary to support my ideas. I think Hillsgrove primary is a great school as all teachers are perky and friendly and easy to get along with. And, the school allows students to fix problems themselves with the school counsellor role.

Like me, a selected few of students in year six get to help fix problems around the school. I hope, as an ambassador, to change the school by adding a suggestion box accessible by students so that not only ambassadors and school councillors make school changing decisions. For my own future, I hope to become a successful content creator, both interactive and for viewing pleasure. I made this choice because by creating content, I can make millions of people around the world happy.

Jay

My name is Myles-Josiah, a Year 6 pupil at Hillsgrove Primary School.

It is a privilege to be a pupil here at Hillsgrove because I think it is an excellent school which brings out the best in everyone. I have enjoyed every day at Hillsgrove because of the wonderful environment. Coming to school is one of the highlights of my week.

Given the opportunity to represent Hillsgrove as an Ambassador is truly a valuable experience. I am a driven individual who loves maths and is passionate about learning, especially new and exciting topics.

As an Ambassador for Hillsgrove, my ambition for our school is that it continue to thrive in all areas to help shape a brighter future for generations ahead.

Myles
